

PRESS RELEASE - EFFECTIVE IMMEDIATELY – 16 September 2014

Strange Talk shine with new remix!

The DJ Central team is excited to announce that Australian four-piece Synthpop band Strange Talk will be releasing as new remix! With the unprecedented success of their recently released track "Morning Sun" the band have amassed a huge number of fans among them Dillon Francis.

Coupled with the announcement of the imminent release of their new remix Strange Talk has also revealed that Dillon Francis will be joining them for this release! Francis has made a name for himself with the release of his chart favorites "Get Low" produced by DJ Snake, released earlier this year.

Strange Talk first broke onto the indie music scene in Australia in 2010 through Triple J's unearthed competition and has since been likened to bands such as Cut Copy, Passion Pit and Phoenix. The band has supported international acts The Rapture and Art vs. Science and performed alongside many others at Parklife, Good Vibrations, Playground Weekender, Future Music Festival, and Falls Festival. The band signed with Wind-up Records for the rest of the world and has released their debut album Cast Away in 2014. Listen out for it September 23rd!
